METHODOLOGY

The U.S. Department of Housing and Urban Development (HUD) requires that all Continuum of Care jurisdictions across the nation complete a biennial unsheltered count and an annual sheltered count of all individuals experiencing homelessness in the community on a single point in time during the last ten days of January.

Orange County's 2019 Sheltered Point In Time Count took place the night of Tuesday, January 22, 2019. Emergency Shelters and Transitional Housing Programs collected client-level demographic information from individuals and families staying the night in each program. The 2019 Unsheltered Count process took place over two days, Wednesday, January 23 and Thursday, January 24, to ensure the 800 square mile County jurisdiction was canvassed effectively. The change in methodology allowed the count teams to collect unique ID data points that were used to deduplicate records for the two day street count process. The survey data was collected with ArcGIS Survey 123, a phone application that captures GIS locations and provides vital information that guides the way the County responds to homelessness in Orange County. The results for the 2019 Everyone Counts process provide the most accurate data on the scope of homelessness in the County. Because of this improved process, methodology and data quality from the use of GIS technology, Orange County's 2019 Point In Time Count results ensure that Everyone Counts.
